FIELD WORK EXPERIENCE

- RAVEN** (2013 – 2019): Designed seismological stations and network setup for RAVEN, lead teams to install all stations in the network, continued maintenance of the network after installation, ensured real-time delivery of data to IRIS. *Link: <https://doi.org/10.7914/SN/RV>.*
- NBCXX** (2012): Assisted in the install of five satellite telemetered seismological stations.
- CRANE** (2011 – 2019): Assisted in the install of stations in the CRANE seismological network. Lead the continued maintenance and acquisition of offline data after station installations. *Link: https://www.fdsn.org/networks/detail/Y5_2006/.*
- Turtle Mountain** (2011 – 2019): Assisted in the maintenance and decommissioning of equipment to monitor the landslide susceptibility of Turtle Mountain.
